SCANGRIP
Work Lamp

Description:
Sturdy LED work lights with shock-resistant aluminium casing and rubber protective surround.
- Soft non-shadowing anti-glare lamp, with low heat emission.
- High light output, low energy consumption, long working life.
- Certified for exterior use and for use in humid environments.
NOVA work lamps with integral carrying handle. High-performance COB-LED with 5-step dimmer function, pivoting.
IP67: Protected against intermittent immersion in water and protected against penetration by dust (dust-tight), also completely protected against touching.

IP Index of Protection to EN 60529 (IP → Index of Protection)

1. Index

Degree of protection against foreign bodies and dust

IP 4.. Protected against penetration by solid foreign bodies ≥ 1mm.
IP 5.. Protection against harmful dust deposits (dust protected).
IP 6.. Protection against penetration by dust (dust-tight).

2. Index

Degree of protection against water

IP .. 0 No protection.
IP .. 2 Protection against dripping water at up to 15° angle to the casing.
IP .. 4 Protection against sprayed water from all directions.
IP .. 5 Protection against jets of water from all directions.
IP .. 6 Protection against strong jets of water from all directions.
IP .. 7 Protection against intermittent immersion in water

Rechargeable Work Lamp - Mini-Pro

Description:
LED cordless work lamp with high-power LEDs for high light output. With fold-out swivel support hook and powerful attachment magnet.
New generation of the MINI-MAG version, powerful spotlight and main light, with charge indicator at the front.
High-performance COB LED technology for extremely bright homogeneous lighting of an area at two levels of brightness. Steplessly dimmable.
IP54: Protected against splashed water from all directions and protected against penetration of dust into the inside (protected against dust), also completely protected against touching.
Supplied with USB charging cable.

Cordless Rod Lamp

Description:

The Line Light work lamp is formed of an extruded acrylic profile with an integral lens (beam dispersion angle 75°). It is thus exceptionally sturdy and shock-resistant. The lamp can be rotated in its housing to give lighting without dazzle. It is thus designed for use under the harshest conditions and reliably provides strong and concentrated light in any working area.

Function:

IP65: Protected against jets of water from all directions and protected against penetration by dust (dust-tight), also completely protected against touching.

Application: With battery for mobile use with additional torch on the end (150 Lumen).

Supplied with: Work light with battery, charger, mounting clip with magnet, and lockable hook.

Separately switchable floodlight and torch.

SCANGRIP Headlamp

Description:
Innovative LED work headlamp with wide spread of light for optimum illumination of the entire work area. Light-weight slim profile lamp. Non-contact switching on and off, thanks to sensor system with two lighting levels.
IP65: Protected against jets of water from all directions and protected against penetration by dust (dust-tight), also completely protected against touching.
Supplied with USB charger.

IP65 LED

#S#12991	125-250	3h-6h	240

LEDLENSER Headlamp

Description:
Powerful high-performance LED industrial headlamp for professional use.
- Pivoting head and stepless focussing function.
- Exchangeable and washable head band.

IPX4 LED

Very light-weight headband lamp, easy to operate. Easily dimmed.

Article No.	Illumination	Working Life	Weight (g)
#S#15659	120/5	6h/60h	133

IP54 LED

Innovative multi-purpose light with removable lamp head.
Flexibility in use, can be operated either with a rechargeable battery or disposable battery.

HEDI

Workstation Lamp

Description:

High quality, universally usable lamps for 250 V / 50 Hz with On / Off switch, 3 m rubber connection cable.
Robust, long, coated flexible metal arm for good mobility of the lamp head and high stability.
20 or 50 Watt halogen flood beam with reflector.

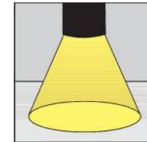

IP20

IP20: Protected against penetration by foreign bodies with $\varnothing < 12$ mm, however touching should be avoided, and offers no protection against water.

Supplied with:

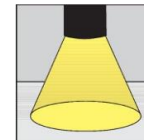

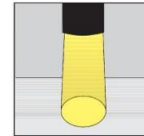

Bulb, with strong magnetic clamp, 50 mm screw-on clamp, and mounting screws for machine, table, wall or ceiling attachment.

Adapter Plug For Power Tools - GB

Description:

Adapter for connecting shock-proof plugs (3 pin plugs) with other European plug systems. Positive adapter plug for power tools.

Suitable for: Great Britain

Voltage : 250

Article No.
#S#00903

Adapter Plug With Earth Contact - GB

Description:

Adapter for connecting shock-proof plugs (3 pin plugs) with other European plug systems. 3-pin adapter plug, e. g. for measuring machines.

Suitable for: Great Britain

Voltage : 250

Article No.
#S#03430

Safety Cable Reel

Description:

Cable reel with guided automatic draw-in and roll-up, with multiple stop points per revolution. High-impact enclosed plastic housing. Thermal overload cut-out, sturdy H07RN-F neoprene cable with connection point.

Easy to mount on the wall or ceiling, with 180° pivoting range.

Function:

IP44: Protected against splashed water from all directions and protected against penetration by foreign bodies with $\varnothing > 1$ mm, however tools and wires should be kept away.

Application:

Improved ergonomics by relieving cable tension, and for ensuring tidiness and avoiding the risk of accidents and injuries due to cables lying on the ground.

Rated power unrolled : 2400 W

Nominal voltage : 250 V

Material cable : Neoprene

Length : 496 mm

Width : 192 mm

Height : 401 mm
